

# Forecast Information

## Tropical Storm Marco

Tropical Analysis and Forecast Branch  
NWS National Hurricane Center

**NOTE:** Do not focus on the exact track. Impacts can occur well outside the area enclosed by the cone.

- Marco is expected to continue toward the NNW until landfall on Monday, followed by slowing and a turn toward the WNW
- Marco is forecast to reach Category 1 hurricane later today and remain that until landfall in Louisiana
- Given the uncertainties, at landfall Marco could be a tropical storm up to a Category 2 hurricane
- Current center forecast positions through the next 3 days illustrated by dots
- White swath of potential track is average track error added to each side of the forecast track through day 3

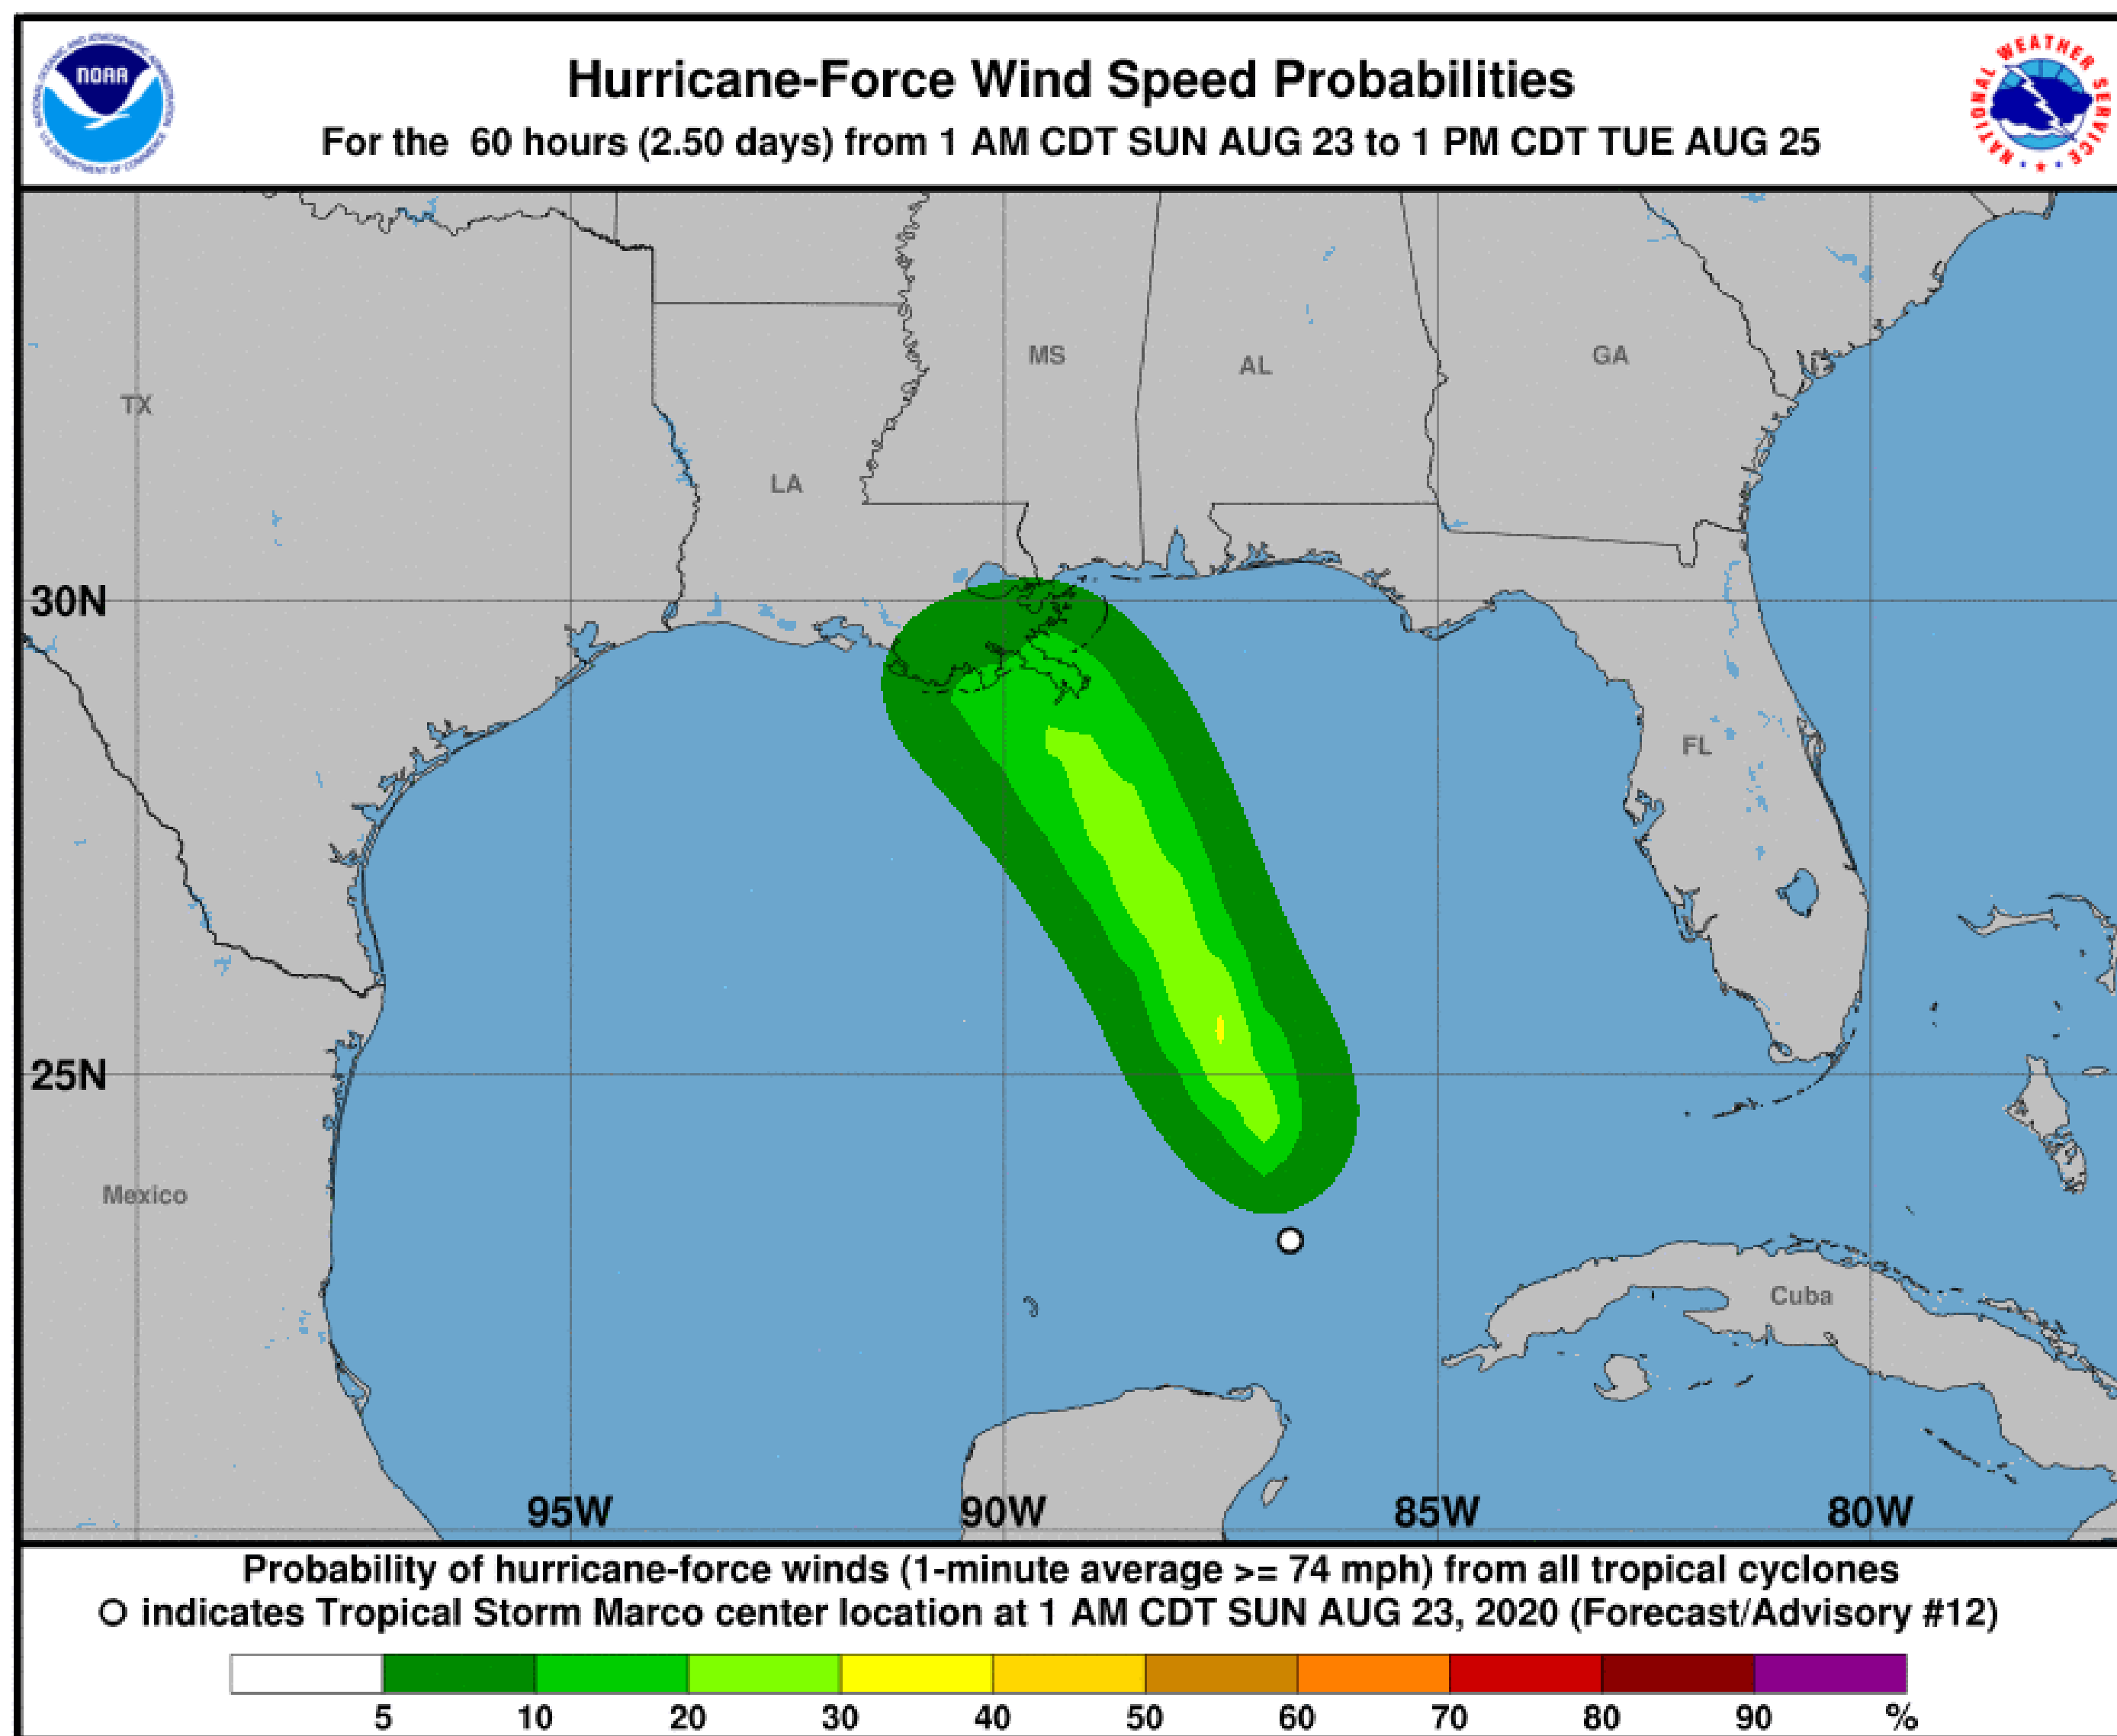

\*\* Swaths are calculated using average track errors and actual track may be well inside, or possibly outside the potential track areas indicated.

# Hurricane Wind Speed Probabilities

Tropical Storm Marco

Tropical Analysis and Forecast Branch  
NWS National Hurricane Center

- Buras – 5-10%
- New Orleans – 5%
- Morgan City – 5%
